e-BRIDGE Open Platform Connector for HP TRIM software®

Toshiba's e-BRIDGE Open Platform Connector for HP TRIM software® allows users to scan directly from e-STUDIO MFDs to HP TRIM record types in a variety of convenient file formats.

Toshiba's e-BRIDGE Open Platform Connector for HP TRIM software provides higher levels of third-party integration with e-STUDIO Multi-Function Devices (MFD).

This easy-to-use connector streamlines processes, improves office efficiency and productivity, in effect reducing overall costs to improve your bottom line.

- > Scan hard-copy documents directly into HP TRIM via the MFD control panel with ease.
- > Individual users are recognised with standard HP TRIM permissions for automated security.
- > Supports standard record types, controls and UDF's allowing new data to be entered whenever necessary.
- > Supports metadata entry with on-screen keyboard.
- > Scanned pages can be converted to searchable PDFs
- > Empower employees to scan directly into HP TRIM to improve workflow with "value added" hard copy integration.

Easy-to-use MFD Interface
