

Total Document Solutions

Work smarter, not harder with Toshiba's Productivity PowerPack

Toshiba's Productivity Power Pack not only empowers your Multi-function device (MFD), but it also empowers your business, too. It does this by helping you manage the whole information lifecycle, from capturing, locating, and storing information to automating business process and improving efficiency.

Toshiba's Productivity Power Pack enables your organisation to link your mobile devices, such as smart phones and tablets, to your digital document archive. Integrated support for global cloud file hosting services helps keep you connected to your data, wherever you are.

Incorporating an advanced suite of tools to assist you with your document capture, print usage reporting and electronic record storage processes, Toshiba's Productivity Power Pack enables businesses to increase efficiency, boost performance, save time and valuable resources and more importantly, look to the future.

Document Capture

From paper to pixels

- One touch capture
- Scan, route, store
- Create automated document workflows
- Send documents to the cloud

Print Reporting

Streaming your workflow

- Provide real-time activity logs detailing all printer usage
- Track the print user, document name, number of pages and other document attributes, including paper size, colour usage and more
- View reports in HTML format or export to CSV or Excel for further analysis

Record Storage

Securing your business

- Drag and drop documents into easily retrievable digital filing cabinets
- Tag files with additional metadata for enhanced retrieval
- Create your own record library from your MFD
- Easily access your document from your smart phone, tablet or PC
